January 2024

Dear *Focal Points* Reader:

Each issue of *Focal Points* was created using the most crucial advances in ophthalmology and features insights to help you integrate tested findings into your practice. While *Focal Points* ceased publication of new modules after 2020, as of January 2024, the *Focal Points* digital archive of 110+ modules is available to you as a free Academy member benefit.

The 2019 and 2020 modules include audio files so that you can listen to the modules on your smartphone, tablet, or computer. To listen to a module, click the audio link under the Learning Objectives. Many modules also include videos that can be accessed via links within the text.

Modules are reviewed for currency on a regular basis by the Practicing Ophthalmologist Advisory Committee for Education. Modules that are no longer in alignment with current practice and standards are retired from the archive.

Focal Points is a great way to earn CME credits—two credits per issue. Reviewing and claiming CME credit online is easy; just click the CME Central link at the end of the module or go to aao.org/cme. You will need your Academy username and password to log into CME Central. *Focal Points* CME credits must be claimed on a per-issue basis.

We hope that you find the digital archive to be a valuable resource.

TITLES BY YEAR PUBLISHED

- 2020:15 Advances in Pediatric Cataract Surgery. ED Bothun, MX Repka.
- 2020:14 Optical Coherence Tomography for the Management of Glaucoma. K Mansouri, HL Rao.
- 2020:13 Innovative Surgical Approaches for the Treatment of Third Nerve Palsy. AS Shah, R Cooley, SP Donahue, LR Dagi.
- 2020:12 Use of OCT Angiography in Macular Degeneration. W Ansari, S Dang.
- 2020:11 Dermatologic Disorders of the Periocular Region. SR Pasady, MM Choudhary, M Irfan.
- 2020:10 Postnatal Weight Gain–Based Prediction Models for Retinopathy of Prematurity. G Binenbaum, AK Jensen.
- 2020:8 Advances in the Diagnosis and Treatment of Dry Eye Disease. FW Boden III.
- 2020:7 Treatment Options for Central Serous Retinopathy. V Poulaki, DR Loporchio.
