**Article Guidance****Article Text**

The following coding and billing guidance is to be used with its associated Local coverage determination.

1) CPT codes 17106, 17107 and 17108 describe treatment of lesions that are usually cosmetic. When using these CPT codes the clinical records should clearly document the medical necessity of such treatment and why the procedure is not cosmetic.

2) CPT codes 11055, 11056 and 11057 describe treatment of hyperkeratotic lesions (e.g., corns and calluses). Coverage for these three codes is described in the Medicare Internet Only Manual.
